

WHO SAYS ONLY THE BOSS GETS A LEATHER CHAIR AND A LAPTOP.

It's about time you got to do your job sitting in leather. But real luxury is more than just leather and a laptop. It's having everything

you need to get your job done right, right at your fingertips.

Techstream integrates you, the vehicle, a

revolutionary wireless PC-based diagnostic tool and the Toyota Technical Information System right in the driver's seat.

Add Toyota Genuine Parts, and you have everything you need to get the job done right, right where you want it.

Now *that's* luxury.
